

EXECUTIVE SUMMARY

This report presents a summary of performance of operation, maintenance, and monitoring activities conducted at OU 4 Landfill 1 over the last year. These activities were performed as specified in the *Inspection, Operation, and Maintenance Plan (IOMP) for Hill AFB CERCLA Cap System* (Montgomery Watson, 1999).

There were no serious defects or issues identified during either the semi-annual or annual Landfill 1 Cap inspection. All data has been loaded into the Microsoft Access CERCLA Cap System Database.

Planned activity for next year consists of continued compliance with the IOMP.
